## BMET Cooperative Education/Internship Requirements

### Q3: Do you require an interview prior to placing BMET students into internships?

Yes

### Q4: What proof of immunizations do you require?

- a) Hepatitis B immunizations: the School will provide documentation of a Positive titer for Hepatitis B antibodies or documentation of a declined vaccination.
- b) Measles, Mumps, and Rubella: the School will provide documentation of two (2) injections of MMR (measles, mumps, and rubella); if the School is unable to provide documentation of immunization, a titer must be done to establish immunity for measles, mumps and rubella. School will provide documentation of titers.
- c) Chicken Pox (Varicella): the School will provide documentation of two (2) injections of Varicella, a titer to establish immunity, or documentation of a declined vaccination.
- d) Tuberculosis Testing: the School will provide documentation of TB test via two (2) step PPD (Tuberculin skin test) or Quantiferon test.
- e) TDAP: the School will provide documentation of TDAP.
- f) Influenza (Flu): the School will provide documentation of current influenza immunization when injection is available or provide documentation of a declined vaccination. Sept 1-Mar31

### Q5: What other requirements do you have for BMET interns?

Nationwide Criminal Background Check: the School will provide.

B.L.U.E. Book for Students is a required student orientation book and test, followed by a confidentiality statement that will have to be signed.

General HIPAA Education Self Study Booklet, followed by a Health Information Privacy and Security Acknowledgement statement that will have to be signed.
