ABC Scholarship Foundation  
1000 100<sup>th</sup> Avenue  
New York, NY 29439

Dear Mr. Bucks,

I am writing to apply for the 2010 Achievement in Science Scholarship. This spring I will be completing my Associate of Science at Portland Community College with a focus on Biology and Veterinary Sciences. I plan on transferring to Oregon State University to continue my studies in Veterinary Sciences. With a close review of ABC Scholarship Foundation, as well as the scholarship requirements, I am very excited to send my application, resume, transcript, references and personal statement to you for consideration for the Achievement in Science Scholarship.

This scholarship is a great match to my interests and personal background in Veterinary work. I go into more detail in my personal statement. However, I see this as an excellent opportunity to enrich my education, as well as my personal experience, through work with farms and country veterinarians. This scholarship will allow me to continue my professional development as I work toward becoming a Veterinarian.

I greatly welcome the opportunity for a personal interview with you. I will call your office next week confirming my materials were received and to see about any additional information needed. You can reach me via phone (555)555-5555 or email at [h.rainer@pcc.edu](mailto:h.rainer@pcc.edu) . Thank you.

Sincerely,

Horst Rainer
