My Goals (heading 3)

I am currently taking CAS111d class at PCC, along with [class2], [class3], [etc.]. My goals in this class are:

In the past 2 weeks, I have learned about the basics of HTML. To create an HTML page, you need to have the following page structure:

```
<html>

  <head> (tip: use non-breaking space and break tag)
    <title>My First Web page</title>
  </head>

  <body>
    <p>Welcome to my page</p>
  </body>

</html>
```

Favorite Websites (heading 3)

I still need to learn a lot from this class, but for now I would like to share my 3 favorite websites:

1. [website 1] (tip: create a link to the actual website)
2. [website 2]
3. [website 3]

I hope you like my website and hope to hear from you soon!
